

# CREATING A UK WITHOUT THE NEED FOR FOOD BANKS

The Trussell Trust supports a network of 1,300 food banks centres across the UK to provide emergency food to people facing hardship, as well as support to help resolve the crisis they face.

But nobody should have to turn to a food bank because they don't have enough income to afford the essentials, so together with our network, we're working towards a future without the need for food banks in the UK. A future where everyone has enough to afford the essentials we all need to live.

Too many people in our communities are forced to make impossible decisions, like whether to buy food or pay household bills.

**This isn't right.**

Working together we know change is possible. Your support means we can support food banks in the network to provide the best possible help for people in their communities, while working towards a better future, where nobody is forced to use a food bank.

**IT DOESN'T HAPPEN WITHOUT YOU.**
